  - Training materials
  - Assessment and exams
  - Certification by ITE / ITEES
- Commercialisation of TVET innovations

## MESSAGE FROM CHIEF EXECUTIVE OFFICER

Over the last 50 years, the Institute of Technical Education (ITE) and its predecessors have played a critical role in enhancing Singapore's human capital, contributing towards its economic and social development. ITE has developed a robust and resilient Technical and Vocational Education and Training (TVET) system that is now recognised globally through waves of transformation guided by its five strategic planning roadmaps. Many developing and developed countries have used ITE as

training programmes but today it is well sought after for turnkey consultancy projects including the setting up of training institutes and provision of advisory services to governments in transforming their TVET systems. ITEES' contributions and services have meaningfully impacted people and TVET organisations from diverse cultures and nationalities from more than 25 countries, spanning across Asia, Africa, Middle East and Latin America. We have significantly helped our TVET partners raised their labour productivity, increased the employability of their youths and adults, enhanced their economic and business competitiveness and transformed the lives of thousands of individuals.

**Global Partner  
of Choice to  
*Transform TVET,  
Transform Lives.***

a benchmark as they aspire to attain a world-class TVET system to support their economic development and industrialisation efforts.

As countries worldwide recognised the importance of skills and investing in TVET, there is a growing interest to learn from ITE's transformation story. ITE Education Services (ITEES) was thus incorporated as a wholly owned consultancy arm of ITE in 2003, to provide consultancy and training services in TVET. ITEES started by offering short customised

Our consultancy projects cover 6 broad areas of TVET Leadership, Infrastructure Development, Academic Development, Staff Capability Development, Quality Assurance and Skills Accreditation & Certification. We recognise that different countries may face different TVET needs depending on their current states of economic and social development. We therefore offer customised TVET solutions to support our partners achieve their specific goals. We welcome you to discuss with us your specific TVET needs and together, we will work with you as your *Global Partner of Choice to Transform TVET and Transform Lives.*

## ABOUT ITE EDUCATION SERVICES

The ITE Education Services (ITEES), a wholly-owned subsidiary of the Institute of Technical Education (ITE), Singapore, was set up in January 2003 with the objective of sharing ITE's expertise in Technical and Vocational Education and Training (TVET).

ITE Singapore was established as a post-secondary education institution in 1992 under the Ministry of Education. ITE is a principal provider of career and technical education and key developer of national occupational skills certification and standards to enhance Singapore's workforce competitiveness. Under its "One ITE System,

Three Colleges" Governance and Education model, ITE has three Colleges, namely ITE College Central, ITE College East and ITE College West.

Over the last 25 years, ITE has received many accolades for its trail-blazing transformation in technical education. ITE is the first education institution to win the Singapore Quality Award with Special Commendation in 2011 in recognition of its organisation excellence. In 2007, ITE won the inaugural global Harvard-IBM Innovations Award in Transforming Government conferred by the Ash Centre for Democratic Governance and Innovation of Harvard University. The award recognised ITE's transformation Plan that has profound impact on the social progress and economic growth of Singapore.
